

The Value of IEL

The Institute of Electrical and Electronics Engineers and the Institution of Electrical Engineers (IEEE/IEE) are the most respected sources in the world for reliable, up-to-date information pertaining to electrical engineering, electronics, computer science, information technology, applied physics, and other technical disciplines.

IEL contains the following IEEE and IEE publications from 1988-present:

- ◆ Journals, transactions, magazines (referred to as "journals" in IEL)
- ◆ Conference proceedings
- ◆ IEEE Standards, includes superseded but not Draft Standards

IEL Features:

- ◆ Easy-to-use, powerful search/retrieval functions; available in Internet, Extranet, or CDROM
- ◆ Full-page image access to over 2,000,000 page images from 12,000 publications
- ◆ Access to over 875 IEEE industry standards, 120 journal titles, and 600 conference proceedings
- ◆ Monthly updates - over 25,000 new pages per month
- ◆ IHS Service and Support - no charge product and technical service; IEL trace to locate any missing documents and get them quickly

IEL Benefits:

- ◆ Expands availability to the desktop of relative, reliable, and up-to-date information 24 hours a day, 7 days a week for authorized users
- ◆ Ensures a consistent and reliable reference for technical data
- ◆ Assists in compliance with industry standards and standards development; improves quality
- ◆ Reduces design errors and lengthy research time, increasing productivity
- ◆ Avoids inter-filing, cataloging, and retrieving documents
- ◆ Helps complete projects expediently and efficiently, improving competitiveness
- ◆ Promotes concurrent engineering, design, and procurement processes

Eighty percent (80%) of product cost is incurred during the first 20% of the product development cycle; it is essential that corporations use the right information on industry standards, parts, or components at the beginning of the cycle.

Question your current acquisition process...

- 1) How much time do you now spend "gathering information" from different sources?
IEL helps decrease time to market through quick access to information you need for projects.
- 2) How much time do you spend maintaining multiple subscriptions, stocking shelves with print, making sure everyone has access to print? If you have one copy in use, a second person is not able to access the document they need and loses valuable time.
IEL increases gross margins through cost-effective information retrieval, decreased cost of maintaining print, manual updating.
- 3) How are you sure you have gathered all the information needed on the subject area? Do you have all the standards that apply? The latest research?
IEL Improves product quality by providing latest information and an easy way to access all information on a particular subject.

IEL is a Single Data Source...all you need!
